SYLLABUS

CE 412 CONTAMINANT FATE, TRANSPORT AND REMEDIATION IN GROUNDWATER
A senior and graduate level course in contaminant hydrogeology

INSTRUCTOR
Lizette R. Chevalier, Ph.D., P.E., D-WRE, BCEE, F-ASCE
Faculty Office: ENGR B-34
Telephone: 618.453.3325
Dean's Office: ENGR E-102
Telephone: 618.453.4321
Email: Lizette.Chevalier@siu.edu

Class: T-Th 9:35-10:50   ENGR B-42
Office hours: T-Th 11-12:30 or by appointment. In addition, I have an open door policy.

TEXT

ADDITIONAL RESOURCES
- Interactive Ground Water (IGW) (www.egr.msu.edu/igw/index1.html)
- MIT OpenCourseWare - Groundwater Hydrology
- MIT OpenCourseWare - Transport Processes in the Environment
- EPA Contaminated Site Clean-Up Information (clu-in.org)
- Interstate Technology Regulatory Council, www.itrcweb.org

CATALOG DESCRIPTION
Mathematics of flow and mass transport in the saturated and vadose zones; retardation and attenuation of dissolved solutes; flow of non-aqueous phase liquids; review of groundwater remediation technologies; review of flow and transport models.

PREREQUISITES
For undergraduate students, CE 310 Environmental Engineering and CE 320 Soil Mechanics. Open to all graduate students in the college of engineering. Graduate students from non-engineering programs are encouraged to inquire about the course since learning and exploring this topic from an interdisciplinary perspective is valuable to all students.

COURSE OBJECTIVES
By the end of the course, students will be able to
- Assess the importance of groundwater locally, nationally and globally
- Explain basic groundwater hydrology
- Model and predict the flow and transport of contaminants in groundwater
• Research technical information
• Describe the development, use and limitations of groundwater remediation technologies
• Prepare and present professional quality term papers and oral presentation

GRADING POLICY

• Homework 30%
• Annotated bibliography 5%
• Exams (3) 15%
• Class presentations 10%
• Class participation 10%

DESIRE TO LEARN PLATFORM (D2L)

Course information will be regularly posted on D2L as opposed to hardcopy distribution in class.

Unless otherwise noted, assignments will be submitted on DropBox in D2L. All files must be named so that I can identify your work (i.e. yourname-hwk#-CEE412-S15.xls).

REQUIREMENTS & CLASS POLICIES

The due dates for homework are posted. Late assignments will be penalized 10% per day.

Three exams will be given during the term, either in-class or as take-home (electronic). This will be announced prior to the exam.

I am absolutely open to email questions (cheval@engr.siu.edu). In the subject line, I recommend using “CEE 412: Student Question” to assure that your message is flagged as message that is important to me.

ACADEMIC HONESTY

Academic honesty is the foundation of higher learning for students and teachers. The University policy concerning academic dishonesty will be strictly adhered to. Acts of Academic Dishonesty under the SIUC Student Conduct Code are:

• Preparing work for another that is to be used as that person’s own work
• Cheating by any method or means
• Knowingly and willfully falsifying or manufacturing scientific or educational data and representing the same to be the result of scientific or scholarly research
• Knowingly furnishing false information to a University official relative to academic matters
• Soliciting, aiding, abetting, concealing, or attempting conduct in violation of this Code

Any violation of the policy can result in immediate failure of this course or other sanctions, as outlined in the Student Conduct Code.

ADDITIONAL INFORMATION

Syllabus Attachment for all SIUC Courses (in D2L folder Course Overview)

Last day to drop a full term course (with refund) February 1
Last day to drop a full term course (w/o refund) April 5
