

Interested in Lean Six Sigma Certificate?

NEW PROGRAM **Professional Development Sequence (PDS)** **Lean Six Sigma**

The PDS is intended to enhance the marketability and training of students who wish to pursue careers in quality management and process improvement. Enrollment in the Industrial Management and Applied Engineering major is not required to complete the program. PDS will require the successful completion of: IMAE 450- Project Management, IMAE 465- Lean Manufacturing, IMAE 470a- Six Sigma Green Belt, and IMAE 470b- Six Sigma Green Belt II for a total of 12 credit hours. Students will receive a certificate of completion when all required courses are completed. In order to be eligible to receive the certificate, at least one of the courses must have been completed in spring 2015 or beyond. If interested, contact Marilyn Updike for more information.

All courses are offered online and at select locations.

[Beginning Spring 2015]
